INTRODUCTION

RACIAL AND ETHNIC ENROLLMENT DATA FROM INSTITUTIONS OF HIGHER EDUCATION, FALL 1972, presents the summations of data acquired by the Department of Health, Education and Welfare's Fall 1972 Survey. This publication presents both a synopsis of the reported data by institution for undergraduate, graduate and professional enrollments of full time students and the summation of this data with respect to various selected paramentes.

The survey covered institutions located in the forty-eight coterminous states and the District of Columbia. Institutions receiving or expecting to receive some form of Federal financial aid or assistance were asked to report. The reporting was based upon the following critical parameters:

- Institutional Component
- Parent Institution
- Institutional Control
- FICE code number
- Student Enrollment Data (full time students)
  - Undergraduate
  - Graduate
  - First Professional

Compliance reporting instructions indicated that each institution of higher education was required to file reports as follwos:

- Every undergraduate school at the main campus and each branch campus
- Every graduate school at the main campus and each branch campus

Every professional school at the main campus and each branch campus.

The definitions of a parent institution and an institutional component are as follows:

Parent Institution - The college or system of which the institutional component is a part

Institutional Component - An undergraduate, graduate or professional school at a main or branch campus (a branch campus is part of an institution which is organized on a relatively permanent basis and offers an organized program or programs of at least two years, and is located in a community different from that in which its parent institution is located.

The following definitions pertain to the data content of the survey:

Institutional Control - Public institutions are those under federal, state and/or local control. Private institutions are independent, non-profit and/or affiliated with a religious group.

FICE Code Number - The Federal Interagency Committee on Education six digit designation assigned to each college or university by the Office of Education, National Center for Educational Statistics

Full Time Students - Those students who are enrolled and taking credits equal to at least 75 % of the normal work load.

Undergraduate Students - Students that fulfill one of the following three criteria;

Taking courses chiefly creditable toward a bachelor's degree and who have not attained such a degree;

In a bachelor parallel or transfer program whose work would be chiefly creditable toward a bachelor's degree upon transfer to an institution with a bachelor's program;

In vocational or technical education programs for which a high school diploma is a prerequisite, that are normally terminal and result in a certificate, diploma or similar award.

Graduate Students - Students who hold a bachelor's or first professional degree or equivalent, and are taking courses creditable toward a master's degree or higher.

First Professional Students - Students enrolled in a professional school or program which requires at least two or more

academic years of college work for entrance and a total of at least six years for a degree. Students in programs requiring only four or five years beyond high school shoulc be reported as undergraduates.

The data provided in this publication are summaries listed by institutional component in any section. However the survey reports were entered into a computerized data base via their reported components.

Summary tables in this publication go considerably beyond the previous publications. Specifically, stratum codes and historical data summaries are portrayed. Since the computerization of the survey data resulted in a Universe File of Institutions of Higher Education responding to the survey, and since data from the two previous surveys (Fall 1968, Fall 1970) were incorporated in the file, it is now possible to produce both ethnic listings of students by stratum within each region and regional summaries of changes in enrollment between 1968, 1970 and 1972 by ethnic category.

In the historical tables data for Graduate and Professional students has been combined since this is the way the 1970 enrollment figures were reported.

SECTION I

UNDERGRADUATE ENROLLMENT BY INSTITUTION

SECTION I

Section I presents 1972 racial and ethnic enrollment data for each reporting institution listing undergraduate enrollment figures. Enrollment data have been aggregated from all components from each respective institution that listed undergraduate student information. Total enrollment, total minority enrollment and ethnic totals for American Indian, Negro, Spanish Surname, Oriental and all other students are displayed. The percentage figures are that column's percent of the total undergraduate enrollment listed for the institution.

APPENDIX A

DEFINITION OF TERMS

DEFINITION OF TERMS

Institutional Component: An undergraduate, professional or graduate school at each main or branch campus.

A Branch Campus: Part of an institution of higher education which is organized on a relatively permanent basis (i.e., has a relatively permanent administration) and offers an organized program or programs of at least two years (as opposed to courses) and is located in a community different from that in which its parent institution is located.

Parent Institutions: The college or system of which the institutional component is a part.

Public Institutions: These institutions under federal, state, and/or local control.

Private Institutions: Institutions which are independent, non-profit and/or affiliated with a religious group.

FICE Code Number: The Federal Interagency Committee on Education six digit designation assigned to each college or university by the Office of Education, National Center for Educational Statistics. A FICE listing can be found in the higher education section of the Education Directory.

Full-time Students: Those students who are enrolled and taking credits equal to at least 75% of the normal work load.

Undergraduate: Students (A) taking courses chiefly creditable toward

a bachelor's degree and who have not attained such a degree (B) in bachelor parallel or "transfer" programs whose work would be chiefly creditable toward a bachelor's degree upon transfer to an institution with a bachelor's program, (C) in vocational or technical educational programs, for which a high school diploma is a prerequisite, that are normally terminal and result in a certificate, diploma, or similar award.

Report the students by year, i.e. the relative position in which a student is enrolled (first year-freshman, second year-sophomore, third year-junior, fourth or subsequent years-senior).

Graduate: Students who hold a bachelor's or first-professional degree or equivalent, and are taking courses creditable toward a master's degree or higher.

First Professional: Students enrolled in a professional school or program which requires at least two or more academic years of college work for entrance and a total of at least six years for a degree. Students in programs requiring only four or five years beyond high school should be reported as undergraduates. All students enrolled in work leading to a master's or higher degree should be reported as graduate students.

Part-time Students: Students who carry course loads less than 75% of the normal workload and who are enrolled in courses at the undergraduate, graduate or professional levels.

Not included in this report are students in non-credit adult education courses; students taking courses at home by mail, radio, or television; students enrolled only for "short courses"; auditors, students studying abroad, or students in any branch campus or extension center in a foreign country.
